

# SMALL CIRCLE PEDESTAL | SETUP INSTRUCTIONS

1

For proper pole alignment, begin by attaching poles to top shelf.

This diagram shows a single grey pole being inserted into a hole on the edge of a circular wooden shelf. A bolt is shown passing through the pole and the shelf.

2

Next, position pedestal with top shelf facing down and attach bottom shelf.

Top

This diagram shows the pedestal with the top shelf facing down. A second circular wooden shelf is being attached to the bottom of the three poles. An arrow labeled 'Top' points downwards.

3

After attaching bottom shelf, flip pedestal back onto base.

Top

This diagram shows the pedestal with the top shelf facing up. An arrow labeled 'Top' points upwards.

4

Next, insert panels into place by applying tension.

This diagram shows the pedestal with a large grey panel being inserted between the two shelves. Two arrows point from the panel towards the poles, indicating the application of tension.
